

The legendary aluminum adhesive tape: Now available in black!

Coroplast 933 ALU black

For all follow-up work on rubber systems, we now offer a particularly flat and optically suitable final adhesive tape: Coroplast 933 ALU black. Whether for subsequently covering black ceiling systems when carrying out repairs or for follow-up safety work on your rubber system: With Coroplast 933 ALU black you are on the safe side.

- › No more painting over required
- › Normally flammable material class B2 in accordance with DIN 4102
- › Water vapour barrier
- › Low reflection
- › Solvent-free, low emissions
- › Proven quality of Coroplast 930 ALU SE adhesive tape

Keeping you connected.

Coroplast

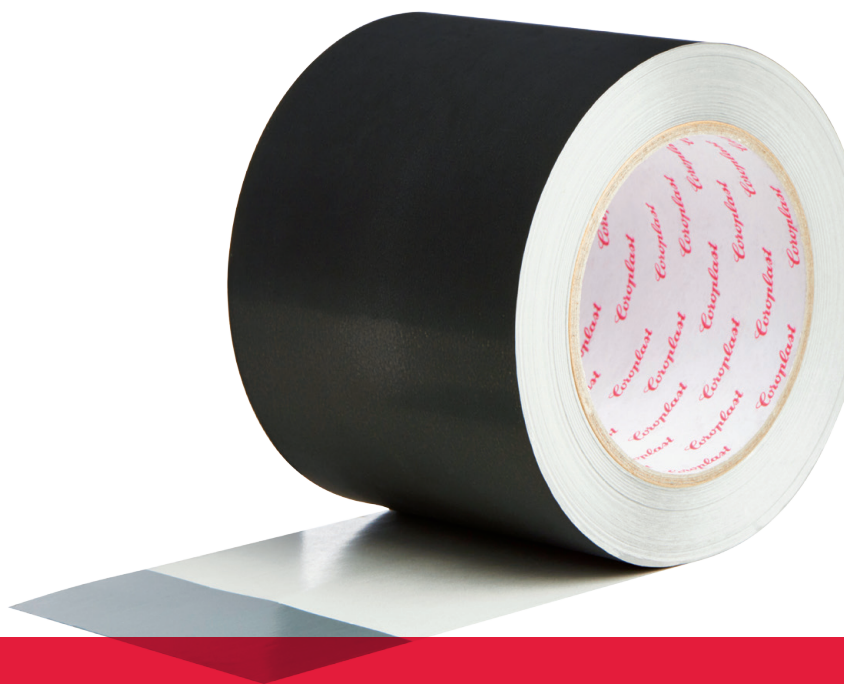

Safety and quality have a name

Standard size:
