

Teclit® Flextape

Flexible sealing tape

**INSPIRED
BY
NATURE.**

Product description

ROCKWOOL Teclit Flextape is a high-quality sealing tape for insulation material joints that must remain flexible and firm. The tape's high adhesive strength and elasticity make it ideal for sealing joints and penetration through the aluminium foil of the insulation material of the Teclit system.

Application

Sealing joints and penetrations in cold insulation in the Teclit system. At places where pipe clamps, flanges, pumps, etc. penetrate the aluminium foil of the Teclit PS 200 and Teclit LM 200, the aluminium layer must be sealed with Teclit Flextape!

TECLIT Flextape

Flexible sealing tape

Product benefits

- Very flexible;
- High adhesive strength;
- Quick and easy for a professional to install;
- Effective vapour barrier;
- Suitable for heat and cold insulation.

Product range

Width (mm)	Length (m)	Rolls / pack
50	20	1
100	20	1

Technical information

	Symbol	Waarde	Norm
Thickness		1.1	EN 1849-2
Adhesive strength		5 N/cm	EN 1939
Long-term temperature resistance		-40 °C to +80 °C	
Working temperature		+5 °C to +40 °C	
Water vapour diffusion resistance	μ	$\geq 10,000$	EN ISO 12572

Handling

For the processing guidelines for ROCKWOOL Teclit, we refer to the "ROCKWOOL Teclit Installation Manuel" brochure.

Services

Technical advice

You can contact our specialists for advice on building regulations, thermal calculations, details, product applications, use and topical issues such as energy efficiency, fire safety, circularity and acoustics. Our technical specialists would be happy to consult with you at an early stage in order to find the optimal insulation solution for your project.
